Perry Gabriel O. Uy
BS information technology
with Specialization in Mobile and Internet Technology

Objective

Seeking an internship where I can apply my specialization in mobile and internet technology to bridge the gap between innovative ideas and functional solutions, contributing to the company's growth and success.

Accomplished Projects

- Developed an Inventory Management System with Point of Sales System for Arya Kopi | **Full Stack Developer**
- Developed a responsive, portfolio website with a login system and integrated database | **Full Stack Developer**
- Developed an educational website on Rizal's "Mi Ultimo Adios," presenting historical content in a user-friendly design | **Frontend Developer**
- Developed an IoT-Enabled Car Rental Management System (PATHLINK) with Real-Time Vehicle GPS Location Tracking | **Backend Developer and Hardware-Software Integration Lead**
